

2021 Bridge Builder Teacher Training Application

July 14, 2021

MDOT – 2nd Floor Computer Room
401 North West Street Jackson, MS

The TRAC program introduces students to a wide variety of career opportunities in the field of engineering and teaches students how to apply math and science concepts to help identify and resolve engineering barriers in the transportation system. This hands-on workshop will offer training on the Bridge Builder Module. Connie Gusmus and Holly Bailey will conduct the training. **This training is for teachers who have not previously attended Bridge Building Training.** MDOT will provide a boxed lunch. Please complete the following application if you would like to attend.
